^A Check this time with DSB International on the morning of your departure as it tends to be changed (and sometimes to an earlier time) at short notice.

^B To access these (or similar times), you will need to use the filter to set the minimum transfer time to 1 hour in Malmö. This allows time for a snack in Malmö and plenty of time for what might otherwise be a stressful transfer.

(Tip: If the direct trains between Copenhagen and Hamburg are fully booked, one option is to make seat reservations or buy tickets between Fredericia and Flensburg. You can travel with DSB between Copenhagen and Fredericia, without a reservation, and with DB between Flensburg and Hamburg, also without a reservation. This route takes more time, but it gets you there.)
